Professional Summary

I am an Information Technology student, web developer, and entrepreneur with a strong passion for building innovative digital solutions. I enjoy developing responsive websites, full-stack web applications, and software that solves real-world problems. I have hands-on experience with HTML, CSS, JavaScript, React, Python, and Flask, and I continuously expand my knowledge through practical projects and independent learning.

Beyond software development, I am the founder of **Rualabs Technology**, where I build modern web applications, business software, and technology solutions that help organizations embrace digital transformation. I am also the founder of **BIGCHASE Music Productions**, an independent music production company dedicated to producing inspiring music, supporting artists, and delivering professional audio production services.

My goal is to combine technology, creativity, and innovation to build products and businesses that create lasting value. I am currently seeking opportunities where I can contribute my technical skills, collaborate with talented teams, and continue growing as a software engineer.

Technical Skills

Programming Languages

- JavaScript (ES6+)

- Python
- HTML5
- CSS3

Frontend Development

- React.js
- Responsive Web Design
- Tailwind CSS
- Bootstrap

Backend Development

- Flask
- REST APIs

Tools & Technologies

- Git
- GitHub
- Visual Studio Code
- Linux
- VirtualBox

Currently Learning

- TypeScript
 - Node.js
 - MongoDB
 - Docker
 - Cloud Computing
 - Artificial Intelligence
-

Professional Experience

Founder & Software Developer

Rualabs Technology

2025 – Present

Rualabs Technology is an innovative technology company focused on developing software solutions that empower businesses and individuals.

Responsibilities

- Design and develop responsive websites
 - Build custom web applications
 - Create business automation solutions
 - Develop AI-powered software concepts
 - Maintain scalable and secure applications
 - Research emerging technologies
 - Collaborate on innovative software projects
-

Founder & Executive Producer

BIGCHASE Music Productions

2025 – Present

BIGCHASE Music Productions is an independent music production company committed to creating inspiring, high-quality music while supporting artists through every stage of production.

Responsibilities

- Music Production
 - Recording
 - Mixing
 - Mastering
 - Songwriting
 - Artist Development
 - Creative Direction
 - Brand Management
-

Featured Projects

Personal Portfolio Website

Designed and developed a modern portfolio website showcasing my projects, technical skills, companies, and career journey.

Technologies

HTML • CSS • JavaScript • React

GitHub:

<https://github.com/bigbil09000-svg>

React Web Applications

Developed responsive web applications using React with reusable components, routing, and API integration.

GitHub:

<https://github.com/bigbil09000-svg>

Flask Web Applications

Built backend applications using Python and Flask featuring authentication, routing, and RESTful APIs.

GitHub:

<https://github.com/bigbil09000-svg>

Renewable Energy Website

Designed and developed a professional business website promoting renewable energy solutions and services.

GitHub:

<https://github.com/bigbil09000-svg>

BIGCHASE Gas Website

Created a responsive business website for cooking gas distribution, home delivery, and customer engagement.

Education

Bachelor of Information Technology

(In Progress)

Relevant Coursework

- Programming
 - Data Structures
 - Database Systems
 - Computer Networks
 - Cybersecurity
 - Software Engineering
 - Web Development
-

Leadership

Founder

Rualabs Technology

Leading software development projects and digital innovation.

Founder

BIGCHASE Music Productions

Leading creative music production and artist development initiatives.

Career Goals

I aspire to become a highly skilled software engineer and technology entrepreneur who develops innovative software solutions that improve businesses and communities worldwide. My long-term interests include artificial intelligence, cloud computing, software architecture, cybersecurity, and scalable web technologies.

I am committed to continuous learning, contributing to open-source projects, and building impactful technology companies that solve real-world challenges.

Soft Skills

- Problem Solving
 - Communication
 - Teamwork
 - Leadership
 - Critical Thinking
 - Adaptability
 - Creativity
 - Time Management
 - Fast Learner
 - Attention to Detail
-
